

Together, we can improve WIC for ourselves and the families who need us!

Dr. Garcia has asked us for our thoughts and emailed some questions, with a goal of providing even better service to Pima County. We're on the front lines helping families every day and our voice is critical in this effort to make improvements.

Management is listening! Together with our Union, we can work to ensure we see the changes we need.

Let's let Dr. Garcia know what we think...

- 1. How do you contribute to the health and productivity of Pima County?**
- 2. What is the most important/impactful thing that you do at PCHD?**
- 3. How do you interface with the public and what impression do they leave with?**
- 4. What are success stories that we need to share with our community?**
- 5. Is there anything else you would like to tell Dr. Garcia about the work you do?**

If you have questions, call Sandy Ochoa at 520-425-9495.

We're Stronger Together!
